EXPERIENCE

Completed Projects

DevonMartin.net - Github: Front end / Back end

Full stack Portfolio Website built with MERN stack

- Developed a custom display system for my projects
- Implemented a DB system for storing and retrieving information on the completion of my coursework
- Made accessibility improvements based on client feedback

Gitlet - Github

Light recreation of Git in Java designed and built by me

- Learned about trade-offs of design patterns
- Mastered basic Git utilities

RuneScape in C - Github

Recreation of MMORPG RuneScape in C with SQLite 3

- Learned about designing and building large programs
- Strengthened fundamental knowledge of computer science

Work

Sherwin Williams - Wholesale Product Specialist - 09/2021 - 05/2022

- Thrived in a fast moving and sometimes stressful environment, while maintaining an optimistic attitude
- Demonstrated strong interpersonal skills working closely with customers
- Restructured the storage room with management team which improved efficiency of getting products out by ~20%

More work experience and references available upon request.

EDUCATION

Education consists of informally auditing courses from Harvard University and the University of California, Berkeley. Completed coursework is on my Github.
